Easy to use

- Six flexible speed and temperature settings for full control

Beautifully styled hair

- 1600W for gentle drying
- Titanium Ionic Care Design

Less Hair Damage

- Less overheating with Even Heat Distribution technology
- ThermoProtect

Highlights

Titanium Ionic Care Design

The new Titanium Ionic Care Design instantly releases 2X ions for an effective anti-static effect. The results is : shiny, smooth & frizz-free hair. The unique Titanium coating of the ion generator ensure a better corrosion resistance for great results. Love your hair, let it shine!

Advanced EHD technology

Advanced Philips EHD technology means that your dryer uses an uniquely designed air outlet to ensure heat is always distributed very evenly - even at high temperatures - and prevents damaging hot spots. This gives ultimate protection to the hair from overheating and thus helps to keep your hair healthy and shiny.

ThermoProtect

As built-in protection for your hair, ThermoProtect retains a constant caring temperature. This allows you to quickly dry your hair without over-drying, maintaining your hair's natural moisture level for shiny, healthy looking hair.

1600W for gentle drying

This 1600W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

6 flexible speed/temp settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.
