#### **Beautifully styled hair**

- 1600W for gentle drying
- Titanium Ionic Care Design

#### **Less Hair Damage**

- Less overheating with Even Heat Distribution technology
- ThermoProtect

# Highlights

## Titanium Ionic Care Design

The new Titanium Ionic Care Design instantly releases 2X ions for an effective anti-static effect. The results is : shiny, smooth & frizz-free hair. The unique Titanium coating of the ion generator ensure a better corrosion resistance for great results. Love your hair, let it shine!

## Advanced EHD technology

Advanced Philips EHD technology means that your dryer uses an uniquely designed air outlet to ensure heat is always distributed very evenly - even at high temperatures - and prevents damaging hot spots. This gives ultimate protection to the hair from overheating and thus helps to keep your hair healthy and shiny.

## ThermoProtect

As built-in protection for your hair, ThermoProtect retains a constant caring temperature. This allows you to quickly dry your hair without over-drying, maintaining your hair's natural moisture level for shiny, healthy looking hair.

## 1600W for gentle drying

This 1600W hairdryer creates the optimum level of airflow and gentle drying power, for beautiful results every day.

## 6 flexible speed/temp settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.
