Perfect beard, less mess

with new Vacuum System

The Philips Norelco Beardtrimmer 7300, a stubble and beard trimmer, delivers superior trimming performance. The stubble comb is designed to create the perfect stubble. The integrated vacuum system captures hairs for less mess guaranteed.

Best performance that feels great

- Contour-following comb for a precise and even trim

Provides maximum ease of use

- Vacuum system captures cut hairs for mess-free trimming
- Maintenance-free blades
- Multifunctional display
- Travel Lock

Create the look you want

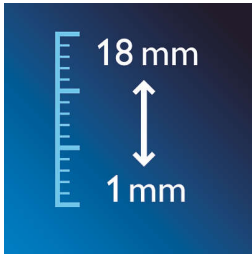

- Stubble comb designed to trim with more precision
- 18 secured length settings from 1 mm up to 18 mm

Provides optimal power

- Turbo power boost button boosts cutting and fan speed
- Strong lithium-ion battery for optimal power use
- Use corded and cordlessly

Highlights

18 secured length settings

Select and locks your desired length within a versatile range of possible lengths.

Multifunctional display

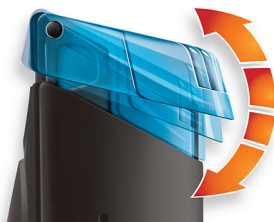

Multifunctional display shows the length setting easily

Integrated vacuum system

The integrated vacuum mechanism absorbs cut-off hairs during use and gives you a cleaner washbasin after use.

Contour-following comb

Flexing guide comb that follows every curve of your face for an even trim, easily and comfortably.

Powerful Lithium-Ion battery

This product has a powerful lithium-ion battery with quick charge so you can charge the product in only 1 hour for 75 minutes' use.

Stubble comb

The stubble comb has been designed to increase visibility during trimming as there are no frontal teeth. Moreover, fine contours are possible by applying the tip of the trimmer at different angles on the skin. This allows for greater control with each individual hair length. This comb is ideal for a perfect stubble or a 5 o'clock shadow where every detail counts.

Maintenance-free blades

The blades stay sharp and need no oiling, so your product is always ready for use.

Travel lock

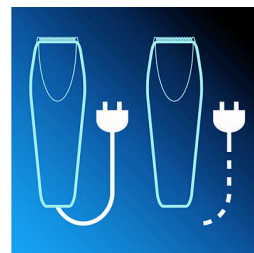

Travel lock option protects your product against unintentionally switching on when you are carrying it in your bag.

Turbo power boost button

When greater suction power and increased cutting speed is desired while trimming, simply press the Turbo Power Button.

Corded and cordless use

Use your electric beard trimmer corded or cordlessly with the rechargeable battery for maximum power and freedom.
