SkinProtect Blades

72 self-sharpening SkinProtect blades gently capture hair in fewer passes, leaving your face smooth and comfortable.

Simple Replacement

1. Open the shaver by pulling of the top half of the shaving unit. 2. Remove the blue ring holding the blades by turning the lock counterclockwise. 3. Remove the old shaving heads and carefully insert new SH60 heads. 4. Replace the blue rings and turn each one clockwise to lock. 5. Re-attach the shaving head bracket. Listen for the click to ensure it is attached properly.

Reset your shaver to new

For best shaving performance, replace your shaving heads every 12 months.
