# Highlights

## 210°C professional high heat

This high temperature enables you to change the shape of your hair and gives you that perfect look you want.

## Ceramic plates

Ceramic is microscopically smooth and durable by nature, and is therefore one of the best materials for straightening plates. The ceramic plates are carefully processed to enhance the gliding and caring properties, giving you perfect shiny hair.

## Fast heat up time

The straightener has a fast heat up time, being ready to use in 60 seconds
