Metal Kettle-Spring Lid, Light indicator
Metal Spring lid, Light indicator, 1.7 L

HD9350/90

Highlights

Cup indicator
The handy water level indicators, including one-cup indicator, make sure that you only boil the amount of water that you need, saving both energy (one cup of water 250ml vs 1L) and water and helping to contribute to a better environment.

Food grade metal parts
Food grade stainless metal parts (SUS304) to guarantee a safe and clean cup of water.

Micro-mesh filter

A removable micro-mesh filter on the spout captures tiny limescale particles as small as 200 microns to ensure a clear cup.

Flat heating element

A concealed stainless steel heating element ensures fast boiling and easy cleaning.

Multi safety system

Multi safety system against boil-dry, with auto-switch off when the water is ready.

Pilot light

Elegant indicator light incorporated in the power switch illuminates when the kettle is turned on.

Water level indicator

The water level is easy to read with an indicator located underneath the handle.

Spring lid with large opening*

A push-button lid opens smoothly at the touch of a button, avoiding steam contact. The large opening simplifies cleaning.

Easy refilling

The kettle can be filled through the spout or by opening the spring lid.

Cordless + 360° pirouette base

The cordless kettle sits on a 360° pirouette base for easy lifting and replacing.
