Styles in seconds, stays all day

SalonStraight Pro

Now you can style your hair with the professional temperature of 215°C, combined with ultra-smooth Tourmaline Ceramic plates and Even Heat Technology, for superior and long-lasting straight styles.

Ease of use

- Swivel cord to prevent tangled wires
- Dual voltage for worldwide use
- Easy lock for convenient storage
- Automatic shut-off after 60 min
- Ready to use indicator
- Easy storage hook for convenient storage
- Heat resistant pouch
- 1.8 m power cord

Beautifully styled hair

- Digital heat settings to ensure super smooth results
- 215°C professional high heat for perfect salon results
- Ceramic Tourmaline plates for sleek, frizz-free shiny hair

Less hair damage

Time saving

Highlights

Digital heat settings

Digital heat settings make it easy to quickly choose the function you need or adjust the styling temperature using the digital display. This enables you to select the perfect temperature for your specific hair and needs. The result is perfect styling at the touch of a button.

215°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look like you've just come from the salon.

Ceramic Tourmaline plates

Tourmaline is a precious gemstone with natural ionic properties. This knowledge has been used to optimize our Ceramic straightening plates. These specially developed plates harness the unique properties of ceramic and tourmaline to perfectly distribute heat across the plate surface for smooth gliding and high shine results. Enjoy sleek, frizz-free shiny hair by styling with Ceramic Tourmaline plates.

EHD+ technology

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Instant heat

Now more waiting around for your styler to heat up, this allows you to switch on and get styling.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

Easy lock

The straightener has an easy lock mechanism. Located at the base of the straightener, this flip lock makes storage quick and easy and will help to protect the straightener from accidental damage.

Dual voltage

Dual voltage for worldwide use

Ready to use indicator

This shows when the styler has reached the right temperature, so you can instantly see when you're ready to style.

Heat resistant pouch

This Heat Resistant pouch is perfect for styling on the go. Forget waiting for your styler to cool down. Simply store using the heat resistant pouch included.

Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.
