Highlights

No oil needed, ever

No need to oil ever, for easy maintenance.

DualCut Technology

Advanced DualCut Technology combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to cut hair sharper and faster than predecessor.

DualCut precision trimmer

The 21mm (13/16") precision trimmer helps you trim & shape your facial style (stubble, goatee, sideburns, neckline or mustache) with high control and visibility.

Rounded tips

The cutting element has specially rounded tips to prevent skin irritations and ensure a smooth, comfortable trim.

Skin-friendly detail shaver

Define the edges of your style with the click-on 21mm (13/16") detail shaver. The detail foil shaver is designed to fit into tight spaces with more precision than a blade, so nothing gets in the way of your perfect style.

Water resistant

The trimmer and the combs are Water resistant and easy to clean under the faucet after each use.

3 precision combs

Maintain the uniform length of your stubble, goatee and mustache with the 1mm, 3mm, and 5mm (1/32", 1/8" and 3/16") click-on precision combs.

Soft rubber grip

The soft-touch rubber grip gives you the best hold, even when wet, for better control when operating your trimmer.

Brush

The brush keeps the blade clean after use.
