- Battery Type: AA

Service

- 2-year worldwide guarantee

NT5650/16

Highlights

Easily trim unwanted hair

Gently remove unwanted nose and ear hair efficiently. Ensure nostrils are clean before use, carefully insert the trimmer inside your nose no more than 0.5cm and slowly circulate it. When trimming ear hair, ensure ears are free of wax. For brow hair, slide one of the two combs (3 and 5 mm) into the grooves and trim with light pressure moving against the hair growth for an even cut to the length you want. For detail trimming, use with or without the detail trimmer comb included in the pack. Adjust the angle to trim, shape and define edges of your beard or goatee with the precision styler head.

Precision trimming kit

A complete solution precision trimmer. The detail attachment helps style stubble, sideburns and necklines with high control and visibility.

Easy handling

The textured handle gives you better grip and control when using your nose trimmer for men, and the on/off switch is positioned for easy operation.

Fully washable

The best nose and ear hair trimmer is one that works with your routine. Simply rinse your trimmer after using it to keep it in optimum condition.

Lithium Battery included

Start using your ear and nose trimmer right away, with the AA battery included in the box.
