- Easy storage hook for convenient storage

Beautifully styled hair

- Narrow concentrator for focused airflow
- Volume diffuser enhances volume, for curls and bouncy styles
- Professional 2100W for perfect salon results

Less Hair Damage

- Ceramic element to smooth your hair

PHILIPS

Highlights

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Professional 2100W

This 2100W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto

specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

Ceramic element

The ceramic element is included to prevent overdrying. It issues infrared heat, which has a gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.
