HPS930/00

Professional straightening with titanium plates

Philips Straightener Prestige Pro offers fast professional performance with titanium floating plates. Start straight away with only 10 sec heat-up time and enjoy optimal control with digital temperature settings.

Easy to use

- 2.5m long cord
- 2-year warranty & 3 extra years upon online registration
- Instant heat-up time of only 10 sec.
- Digital temperature settings for absolute control
- Heat protection cap
- 100mm long plates for fast and easy straightening

Beautifully styled hair

- Titanium coated plates for fast and smooth straightening

Less hair damage

- Ionic care for smooth, frizz-free, shiny hair
- Prevent hair breakage with floating plates

Highlights

Titanium coated plates

Professional titanium coated plates for best heat conduction. This superior plate material is durable and transfers heat quickly, resulting in fast and smooth straightening.

Floating Straightening Plates

The floating plates move, when too much pressure is applied during straightening. This protects the hair shaft from being damaged and therefore avoids overall hair breakage.

Long professional plates

The longer 100mm plates enable better contact with the hair to help you achieve perfect straightening results easier and in less time.

Ionic care

Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is smooth, shiny and frizz-free.

10 sec. heat-up time

The high-performance heater used in combination with the titanium plates, enables an instant heat-up time of only 10 seconds. Switch it on and you are ready to start straightening.

Digital temperature settings

Easily set and style your hair with variable temperature settings from 140 to 230°C. The unique combination of the temperature setting wheel and digital display gives you precise control for professional results.

2.5m cord

The professional 2.5m long cord reinforces the ease of use anywhere you want.

Heat protection cap

A practical accessory that lets you store the straightener quickly after usage.

Long-lasting warranty

Extend your 2-year warranty with 3 extra years with online registration of your product within 3 months of purchase.
