Gift set

KeraShine Ionic
Dryer and straightener set

HP8646/10

The KeraShine gift set for silky smooth hair

This KeraShine gift set with a 1600W dryer and wide-plate straightener is specifically designed to give you the benefits of Keratin and extra shine in one set. Give yourself the style you desire while being gentle on your hair.

Easy to use

- Straightener: Fast heat up time, ready to use in 60 seconds
- Straightener: Extra wide plates for thick or long hair

Beautifully styled hair

- Dryer: 1600W drying power for perfect salon results
- Straightener: 210°C professional styling temperature
- Straightener: Keratin ceramic plates for extra shine

Less hair damage

- Dryer: Even Heat Distribution to limit hot spots
- Dryer: 6 speed / heat settings for full drying flexibility
- More care with ion conditioning for shiny, frizz-free hair
- Dryer: Gentle drying at thermoprotect temperature

PHILIPS

Highlights

Keratin Infused Ceramic plates

The keratin-infused ceramic plates are carefully designed to enhance gliding and shine while you straighten your hair, giving you the silky smooth hair you desire.

Ionic Care

Give you hair instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair, and smoothen the cuticles to enhance your overall shine. The result is hair that is extra smooth and shiny without frizz.

210°C professional high heat

This high temperature enables you change the shape of your hair and gives you that perfect look like you've just come from the salon.

Instant heat-up

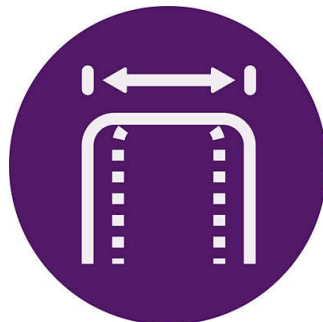

The straightener has a fast heat up time, being ready to use in 60 seconds.

Dryer: 6 heat/speed settings

6 heat/speed setting for full flexibility and gentle drying. Choose the temperature setting that you prefer for gentle drying to your hair.

Wide plates

These extra wide straightening plates have been designed specifically for thick or long hair. The increased plate width can straighten more hair in one go and will help to reduce the time required to style.

Dryer: 1600W drying power

1600W drying power for perfect salon and styling results

ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

Even Heat Distribution

Philips EHD technology uses a uniquely designed air outlet to ensure heat is always distributed evenly across your hair, even at high temperatures. This gives you ultimate protection from hot spots or having your hair overheat.
