#### Beautifully styled hair

- ThermoProtect temperature setting
- Cool shot to set your style
- 1800W of drying power

#### Attachments

- 20mm nozzle for focused airflow
- Volume diffuser enhances volume, for curls and bouncy styles

# Highlights

## 1800W of drying power

This 1800W hairdryer creates the optimum level of airflow, for beautiful results every day.

## ThermoProtect temperature

The ThermoProtect temperature setting provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

## 3 flexible speed settings

This hairdryer offers 3 pre-selected speed/heat combinations to make it quick and easy to achieve the perfect style.

## 20 mm nozzle

The nozzle focuses the airflow for precision styling and touch-ups.

## Volume diffuser

The volume diffuser spreads the flow of air across the hair, boosting volume and reducing frizz while drying. For best results, hold the

diffuser close to the crown and root area. The diffuser's fine textured pins will add volume, maximize thickness, bounce and help shape curls.

## Cool shot

The Cool shot provides a burst of cold air - a must-have setting to set and finish your style.

## Easy storage hook

A rubberized hook can be found on the base of the handle. Use to store easily at home or if staying at a hotel.
