Showerproof body groomer  
Skin contour system Integrated comb, 3-11mm, 50mins cordless use/1h charge, Dual-sided design

TT2040/33

## Highlights

### Skin contour system

The skin contour system catches and cut hairs of different lengths, without the need for multiple tools or skin contact with sharp edges. The bi-directional trimmers cut longer hairs, which are shaved by the foil for a closer result. The added flexibility of the contour system follows every angle and surface of your body for precisely the look you want.

### Skin-friendly tips and foil

The skin comfort system features a hypo-allergenic foil and rounded tips to protect your skin while shaving.

### Integrated trimmer with comb

The integrated trimmer and adjustable comb with 5 length settings is designed to offer more power to cut even the thickest hair. To maintain your desired hair length or get a natural look, adjust the comb to a length between 3-11mm. You can use the shaving system on the other side, for a closer result.

### Rechargeable battery power

High-power NiMH battery for full body use, with 50 minutes of cordless use after a 1-hour charge. The battery light indicates power status, when the battery is low or full.

### 100% showerproof

Provides a comfortable and close result in and out of the shower. The bodygroomer is 100% showerproof, so you can simply rinse it clean when you've finished. For longer hair, trimming performance may be better on dry hair.

### Ergonomic grip

Your body groomer is easy to hold and manoeuvre, with a rubber ergonomic grip to help you keep control while you trim.

### Built to last

All of our grooming products are built to last. They come with a 2 year warranty and they never need to be oiled.

# Specifications
