Titanium blades 400 length settings, 120mins cordless use/1h charge

HC9450/13

Highlights

Digital Swipe interface

The Digital Swipe interface gives you precise feedback on the selected length. Use the touch screen to easily swipe through more than 400 length settings. Quickly browse through lengths or slowly go through each small step of 0.1 mm.

400 lock-in length settings

Use the Digital Swipe to lock-in the exact length you want. There are more than 400 to choose from in 0.1mm increments, or remove the comb for a close 0.5mm trim.

3 adjustable hair combs

Experience precision clipping with 3 adjustable hair combs. Lock-in more than 400 hair lengths between 1mm and 42mm, or use the clipper without a comb for a close 0.5mm trim.

Titanium blades

Get a perfect yet protective trim with self-sharpening titanium-coated steel blades created for long-lasting performance, time after time.

Motorized Combs

Lock-in your preferred length setting to 0.1mm accuracy and keep it there with a motorised length setting system designed for precision.

Memory Function

The smart hair clipper that saves you time, not only does it remember your last cutting length, it can memorise your 3 preferred settings. Just select and hold the memory button.

Auto Turbo

The Auto Turbo feature automatically adapts to thicker hair, giving a little boost of extra power for an effortless cutting motion.

DualCut Technology

Power through any hair type with our advanced DualCut Technology, which combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to cut hair twice as fast as regular Philips clippers, with the added confidence of a robust steel guard for ultimate durability.

Powerful cordless use

Don't get tangled up in your cordless hair clippers – a 1 hour charge provides up to 120 minutes of powerful clipping time. Or keep it plugged in for uninterrupted trimming.
