Professional results

Salon Control Ionic

Take control of your blow dry with the Salon Control Ionic. 2000W of professional drying power, Ionic conditioning and multiple settings means great results – from dry to set to style.

Easy to use

- Removable air inlet grill for easy cleaning
- Lightweight design for ergonomic use

Beautifully styled hair

- Professional 2000W for perfect salon volume
- Six flexible speed and temperature settings for full control
- Narrow concentrator for focused airflow

Less Hair Damage

- Ion conditioning for shiny, frizz free hair
- EHD+ technology for more protection and shinier results

Long lasting styles

- Cool Shot sets your style

Time saving

- TurboBoost lets you dry faster without additional heat

Highlights

Six flexible speed settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

EHD+ technology

Advanced Philips EHD+ technology means that your dryer will always distribute the heat very evenly - even at high temperatures, and

prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Ion conditioning

Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

TurboBoost

The special TurboBoost feature has been designed to quickly dry yet protect the hair by providing powerful drying without the need for increased temperature.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Lightweight design

This new design doesn't just look it. Lightweight and ergonomic, the hairdryer is easier to handle and results in improved styling flexibility.

Removable air inlet grill

The air inlet grill of this hairdryer can be removed for cleaning. Remove and clean regularly to prevent build-up.
