The dryer hairdressers would use at home

SalonPro

Want to dry your hair like the professionals? The SalonPro – with 2100W of superior drying power – is the hairdryer you need if you're looking to recreate that salon style blow dry.

Easy to use

- Soft grip for ease of use

Beautifully styled hair

- Professional AC motor for 50% longer lifetime
- Ceramic volume diffuser for additional protection and volume
- Professional 2000W for perfect salon results
- 9 flexible speed & temperature settings for maximum control
- Ultra narrow concentrator for precise styling

Less Hair Damage

- Ceramic element to smooth your hair
- Ion conditioning for shiny, frizz free hair

Long lasting styles

- Cool Shot sets your style

Highlights

Professional 2000W

This 2000W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

9 flexible speed/temp settings

The speed and heat required can be easily adjusted to create the perfect end result. Nine different settings ensure maximum control for precise and tailored styling.

Professional AC motor

This type of motor is specially developed for the professional market and brings you several benefits. Most important, it has a longer lifespan than usual motors which lengthens

the lifetime your hairdryer by 50%. On top of this, it also has an extra powerful airflow for fast and effective drying.

Ultra narrow concentrator 15mm

The concentrator works by directing the flow of air through the ultra narrow opening on to specific areas. This results in very precise styling and is great for touch ups or to finish a style.

Ceramic volume diffuser

The volume diffuser dries hair quickly and evenly to minimise frizz and add volume. The diffuser is coated in high quality ceramic. This helps to protect the hair and adds softness and shine, making it perfect for creating healthy looking curls and bouncy styles.

Ceramic element

The ceramic element is included to prevent overdrying. It issues infrared heat, which has a gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Ion conditioning

Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Cool Shot

A must-have professional function for hair stylists. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Soft grip

The soft, non-slip grip is ergonomically designed. It has been tested by professionals for easy handling and salon performance.

Specifications

Technical specifications

Voltage: 220-240 AC V

Frequency: 50/60 Hz

Wattage: 1800 W

Weight and dimensions F-box

Net product dimensions excl. attachments:
