Highlights

210°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look like you've just come from the salon.

Instant heat up

The curler has a fast heat up time, being ready to use in 60 seconds.

Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

Cool tip

The tip of the styler is made from a special heat insulating material to keep it cool; you can safely hold it while you're styling for optimal ease of use.

1.8 m cord

1.8 m power cord

Safety standThe safety stand enables you to put the curler down safely during use.
