Highlights

ThermoShield technology

The overheat detect sensor actively optimizes and controls the air temperature, protecting your hair from damage** caused by overheating. Enjoy a stress-free drying experience with ThermoShield technology.

20*** faster drying

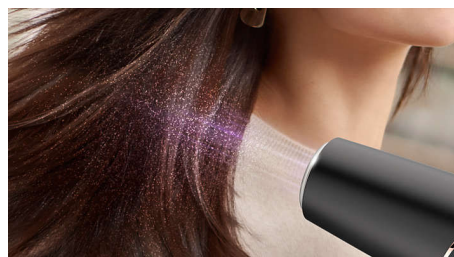

A more powerful airflow of 2300W makes drying 20%** faster, while still protecting your hair.

110 km/h air speed****

This hairdryer's high-performance motor has been developed for the professional market. It generates an air speed of up to 110 km/h****, for fast drying and impressive styling.

4x ionic care*

This ultra-powerful ionic system emits up to 80 million ions per drying session, creating frizz-free, shiny hair.

6 heat and speed settings

Easily pick the combination of heat and speed that works best for your hair and style. Six

different settings ensure precise control for tailored styling.

Cool Shot

The Cool Shot button provides an intense burst of cool air. It is used after styling to finish and set the style.

11 mm styling nozzle

The slim nozzle precisely focuses the air, for quick touch-ups and perfecting small details of your style.
