- Straightener: Ceramic plates for smooth gliding & shiny hair
- Dryer: Best drying temperature with ThermoProtect temperature

PHILIPS

Highlights

ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

6 heat/speed settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Professional 2100W

This 2100W professional hairdryer creates a powerful airflow. The resulting combination of

power and speed makes drying and styling your hair quicker and easier.

210°C professional high heat

This high temperature enables you to change the shape of your hair and gives you that perfect look you want.

Ceramic plates

Ceramic is microscopically smooth and durable by nature, and is therefore one of the best materials for straightening plates. The ceramic plates are carefully processed to enhance the gliding and caring properties, giving you perfect shiny hair.
