- Power: 2100 W
- Material housing styler: ABS/PC

Serviceability

- Replacement

HP4990/00

Highlights

Volume diffuser

The volume diffuser dries hair healthily, reduces frizz and increases volume by spreading the airflow across the hair. It adds lift and maximises volume, especially when used on the crown and root area, making it perfect for creating curls and bouncy styles

Professional 2100W

This 2100W professional hairdryer creates a powerful airflow. The resulting combination of power and speed makes drying and styling your hair quicker and easier.

Ultra narrow concentrator 15mm

The concentrator works by directing the flow of air through the ultra narrow opening on to specific areas. This results in very precise styling and is great for touch ups or to finish a style.

Ceramic element

The ceramic element is included to prevent overdrying. It issues infrared heat, which has a gentle warmth which helps dries your hair from within and protects it from overdrying, without compromising on speed and effectiveness.
