Hairdryer
2500W

HP4996/00

Highlights

50% more airflow

The highest drying power ever, 50% more airflow (32l/s) for faster drying

Professional 2500W

This top of the range 2500W professional hairdryer creates a very powerful airflow. The resulting combination of high power and top speed makes drying and styling your hair much quicker and easier.

Six flexible speed settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

1.8 m cord

1.8 m power cord

CoolShot

CoolShot sets your style

Narrow concentrator

The concentrator works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a style.

Quick salon results

Quick salon results

Ceramic element

to smooth your hair

Ionic Care

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.
