Easy to clean and maintain

- Easy cleaning thanks to dishwasher-safe parts
- Cutting-edge design with stainless steel finish

Set the beverages to suit your taste

- Save your favourite coffee settings
- Avoid heat loss and fit every cup with our adjustable spout
- Play with the coffee's richness with our adjustable grinders

 **Saeco**

Highlights

Stainless steel

The cutting-edge design of your Saeco espresso machine is rounded off by the stainless steel finish. The stainless steel provides a high-quality look and will be a highlight on your kitchen counter tops. It also gives greater resistance for a long-lasting performance.

100% ceramic grinders

This espresso machine is equipped with 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean, for an impeccable espresso. Ceramic also ensures long-lasting performance and totally silent operation.

Quick-heat boiler

The Saeco quick-heat boiler technology ensures your machine is always ready. Now you won't have to wait between brewing each espresso, but can prepare coffee after coffee.

Dual-chamber milk carafe

Enjoy your milk specialties fully automated with the patented milk carafe with dual-chamber technology. Simply pour milk into the carafe, plug it into the machine and select your coffee drink. With the dual-chamber technology you will always enjoy professional coffee drinks with dense, long-lasting milk froth at the ideal temperature from a constant splash-free flow of milk.

Saves your coffee settings

You will always get a perfect cup of espresso brewed just for you, according to your personal preference, thanks to our innovative memo function for adjusting the coffee length, strength and temperature. Enjoy a superb coffee drink in your favourite cup at the touch of a button.

Adjustable spout

The adjustable spout on our espresso machines will fit every cup and thus prevent the coffee splashing or cooling down while being poured into your cup. This way your espresso is always served at the right temperature, while the machine is kept clean.

Specifications

Features

- Brita Filter compatible: Optional
- Simultaneous brewing
- Hot water wand

Perfect Espresso

- Espresso technology: Saeco adapting system, Aroma-system: pre-brewing
