SCD501/01

The most reliable connection to your baby

The essential connection to your baby

Our new DECT SCD501/01 Baby Monitor delivers complete reassurance by providing the essentials of a baby monitor. The most reliable connection with crystal clear sound and a comforting night light for you and your baby.

Reliable technology

- DECT technology guarantees zero interference and 100% privacy
- Perfect clear sound thanks to DECT Technology

Constant Reassurance and Secure Connection

- Always know when your monitor is in range and connected
- Sound-level lights indicate if the baby makes a noise
- Energy-saving Smart ECO mode

Freedom and flexibility

- Range up to 300 metres*
- The parent unit is mains powered and battery operated
- Superior operating time up to 24 hours

Comforting and soothing your baby

- Comforting nightlight

Highlights

Zero interference with DECT

DECT technology guarantees zero interference from any other transmitting products like other baby monitors, cordless phones and mobile phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby.

Perfect clear sound

Hear every tiny giggle, gurgle and hiccup with perfect clarity. DECT (Digital Enhanced Cordless Telecommunications) technology provides high quality, crystal clear sound so you can hear your baby all the time.

Smart ECO mode

The unique Smart ECO mode automatically minimises your transmission power and increases your battery lifetime. The closer you are to your baby, the less power is needed for a perfect connection (not available in US and Canada).

Always connected

The parent unit will alert you when your monitor is out of range or when the power is low, helping you to make sure that you are always connected to your baby.

Sound activation 5 LED lights

Lights are activated to indicate the level of sound in your baby's room, even when the Parent Unit is muted.

300m Range

Indoor range up to 50 metres*, Outdoor range up to 300 metres*.

Battery and mains operated

The parent unit runs perfectly on mains power. For extra mobility you can also insert batteries to allow cordless use of the parent unit. You can insert two 1.5-V R6 AA alkaline non-rechargeable batteries or two 1.2-V R6 AA rechargeable batteries.

Operating time up to 24 hours

The small parent unit will give you the freedom of cordless streaming for up to 24 hours before re-charging is required. However, this depends on the type of batteries used and how often and how long you use the parent unit on batteries.

Comforting nightlight

Your baby may still be restless when you first put them to bed. Help soothe and calm your baby to sleep with the warm tranquil glow of the nightlight.
