- 1.2-l water tank and refill at any time during ironing
- Compact size and light weight for easy storage
- Smart Calc cleaning system with a sound and light cleaning reminder
- Max 4 bar pump pressure
- Non-stick soleplate coating

PHILIPS

Highlights

Steam ready in 2 minutes

Steam is ready to use in 2 minutes and can be refilled at any time during ironing.

1.2-l water tank

The SpeedCare steam generator has a 1.2-l water tank capacity to allow you to iron for over an hour. It helps to reduce the number of refills required for large laundry loads. The technology will also allow you to refill the water tank during ironing without the appliance cooling down for 2 hours while it is waiting to be refilled.

Triple precision tip

The tip of this Philips iron is precise in 3 ways: it has a pointed tip, button groove and a sleek nose design. The triple precision tip enables you to reach even the most tricky areas, e.g. around the buttons or between the pleats.

Non-stick soleplate

The soleplate of your Philips iron is coated with a special non-stick layer for good gliding performance on all fabrics.

Max 4 bar pump pressure

The more steam, the faster the ironing. Consistent powerful steam is generated which penetrates deep inside the garments making ironing both faster and better. Steam power can be regulated to suit your needs.

Compact size and light weight

Thanks to the revolutionary ProVelocity technology, we made your steam generator iron more compact than ever before. The compact steam generator fits easily on your ironing board making your ironing more convenient. In addition, your steam generator takes much less storage space.

Smart Calc cleaning system

The Smart Calc cleaning system is an integrated descaling and cleaning function that protects your steam generator iron. After around 10 hours of ironing, your steam generator iron will remind you to perform the Calc cleaning process with a sound and light notification. The iron conveniently rests on the Calc container as it collects the dirty water, so you don't have to strain to hold the iron during the process. After all the water has been collected in the container, your steam generator iron is ready to use again.

Specifications

Calc management

- Calc clean solution: Smart Calc Clean
- Suitable for tap water
- Calc clean reminder
- Filtered water recommended

Weight and dimensions

- Weight of iron: 1.1 kg
- Packaging dimensions (W x H x D): 26.4 x 30.3 x 40.4 cm
- Product dimensions (W x H x D): 19.8 x 21.7 x 34.6 cm
- Weight of iron + base: 2.6 kg

Easy to use

- Water tank capacity: 1200 ml
- Refill any time
- Filling and emptying water: Extra-large filling hole
- Heat-up time: 2 min
- Cord freedom (swivel): 180 degree cord freedom
- Power cord length: 1.8 m
- Hose length: 1.6 m
- Hose storage: Hose storage compartment

Service

- 2-year worldwide guarantee

Fast and powerful crease removal

- Continuous steam output: 90 g/min
- Power: 2400 W
- Pressure: Max 4 bar pump pressure
- Vertical steaming
