Philips PerfectCare Pure Steam generator iron

Max 5 bar pump pressure 180 g steam boost 1.5 l fixed water tank

Faster and easier ironing

with no temperature adjustment required

Iron your garments without adjusting temperature thanks to the revolutionary OptimalTEMP technology. Compact and light weight design for easier storage. Use demineralised water only to ensure the best performance.

Fast and powerful ironing

- Max 5 bar pump pressure
- Tap water-friendly, refill any time during ironing
- Our best gliding soleplate
- 1.5 L water tank, up to 2 hours of ironing
- Saving energy with ECO mode
- The most compact and lightest steam generator

Fast and powerful ironing

• Steam boost up to 200 g

Carefree ironing, no temperature setting required

- · Iron everything from jeans to silk with no temperature setting required
- · Safe to leave the hot soleplate on the ironing board

Highlights

OptimalTEMP technology

"Now you can iron from jeans to silk with no temperature setting required. Guaranteed not to burn any ironable fabrics. Revolutionary technology with the 1) Advanced Smart Control Processor which controls precisely the soleplate temperature. You do not need to adjust the temperature 2) Compact ProVelocity steam engine delivers more steam for faster ironing. It features a compact design for easier storage"

Steam boost up to 200 g

The steam boost can be used for vertical steaming and tough creases.

Energy saving

By using the ECO mode with a reduced amount of steam, you can save energy without compromising on the ironing results. For faster ironing, switch to Turbo mode, which generates more steam.

Max 5 bar pump pressure

The more steam, the faster the ironing. Consistent powerful steam is generated, penetrating deep inside the garments to make ironing quicker and easier. Steam power can be regulated to fit your needs.

Refill with tap water any time

Your steam generator iron is designed to use tap water. While ironing, when the water tank

runs out of water, you can easily refill it without having to wait or turn off your appliance.

Safe rest

The innovative Philips OptimalTEMP technology guarantees no burns on all ironable fabrics. During ironing, there is no need to put your iron back on the base station; just leave the hot iron soleplate directly on the garments or cotton ironing board cover without an additional resting accessory. It will not damage any of your ironable garments, or the board. This makes your ironing easier, with less wrist effort.

T-ionicGlide soleplate

The 5-star-rated soleplate with integrated Titanium-Oxide layer offers our best gliding performance and is the most scratch resistant

Compact and light

The compact design makes your appliance easy to store. Space will never be an issue again! As it is very light, your appliance is easy to carry. Its lightweight iron will make your ironing much more comfortable.

Calc management

· Calc clean solution: Demineralised water

Technical specifications

- Weight of iron + base: (with 1 cartridge) 3.19 kg Packaging dimensions: 40 x 23 x 28 cm
- Product dimensions: 35.4 x 19.3 x 22.4 cm
- Voltage: 220–240 V
- Weight of iron: 1.2 kg
- Easy to use
- Water tank capacity: 1500 ml
- · Refill any time
- · Safe for all fabrics: Even for delicates such as silks
- Heat-up time: 2 min
- Filling and emptying water: Extra-large filling hole
- Cord freedom (swivel): 180 degree cord freedom
- · Cord storage: Cord clip
- Power cord length: 1.8 m

- Hose length: 1.6 m
- Hose storage: Hose storage compartment

Sustainability

• Energy saving mode

Fast and powerful crease removal

- Soleplate: T-ionicGlide
- Continuous steam output: 120 g/min
- OptimalTEMP technology
- Power: 2400 W
- Safe rest
- Pressure: Max 5 bar pump pressure
- Vertical steaming
- Steam boost: 180 g
- Variable steam settings
- Steam tip
- Turbo steam
