Set the beverages to suit your taste

- Save your favourite coffee length and strength

Set the beverages to suit your taste

- Play with the coffee's richness with our adjustable grinders

 **Saeco**

Highlights

Automatic circuit cleaning

Saeco designed this espresso machine to automatically clean its coffee circuit with water when the machine is started up or switched off. This delivers a great, fresh taste with each cup of coffee.

Quick-heat boiler

The Saeco quick-heat boiler technology ensures your machine is always ready. Now you won't have to wait between brewing each espresso, but can prepare coffee after coffee.

Classic milk frother

This Saeco espresso machine comes with the classic milk frother, which baristas call

"Pannarello". It dispenses steam and needs to be immersed in the milk to prepare gorgeous milk foam. Unleash your inner barista by preparing your delicious milk specialities the traditional way!

Metal grinders

Our metal grinders always guarantee impeccable grinding.

Saves coffee length and strength

You will always get a perfect cup of espresso brewed according to your personal preference thanks to our memo function, which allows you to adjust the coffee length and strength to suit your taste. Enjoy a superb coffee drink in your favourite cup at the touch of a button.

5-step adjustable grinders

Different coffee blends require different levels of granularity for the full flavour to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full-bodied espresso, to the coarsest, for a lighter café crème.

Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easy cleaning by rinsing under the tap, ensuring maximum hygiene.

Specifications

Weight and dimensions

- Product dimensions (L x D x H): 292 x 381 x 368 mm
- Coffee bean capacity: 180 g
- Product weight: 8.5 kg
- Waste container capacity: 14 serv
- Water tank capacity: 1.5 L

Technical specifications

- Boiler material: Stainless steel (Inox)
- Cord length: 80 cm
- Voltage: 230 V
- Supported coffee types: Whole coffee beans
- Power: 1400 W
- Frequency: 50 Hz
- Country of origin: Made in Europe, Designed in Italy

- Water pressure in pump: 15 bar (perfect espresso)
- Number of water boilers: 1 boiler
- Removable brewing group

Perfect Espresso

- Espresso technology: Saeco adapting system, Aroma-system: pre-brewing

Service

- 2-year worldwide guarantee
