PHILIPS

Highlights

2000 Watt motor

This vacuum cleaner has a 2000 Watt motor generating max. 400 Watt suction power for the ultimate cleaning perfection.

AutoClean filter

After every cleaning job, a simple push of a button will activate a rattle that thoroughly shakes the dust from the filter pleats into the dust bucket. Now the airflow is no longer blocked by the dust in the filter and suction power is almost like new.

HEPA AirSeal, HEPA 13 filter

This Philips vacuum cleaner has been designed in such a way that all the air taken in is passed through

Issue date 2023-04-14

Version: 1.0.1

the washable HEPA 13 filter (99.95% filtration) before it is exhausted. No escape is possible.

Super Parquet and Turbo Brush

The two additional nozzles enable you to vacuum clean all types of floors with the right tool. The Super Parquet nozzle delicately removes 3 x more sticky dirt from your hard floors. The Turbo Brush nozzle allows deep cleaning and quick hair and fluff removal from carpets. This results in 25% better cleaning performance on carpet floors.

TriActive nozzle

The TriActive nozzle cleans your floor in 3 ways in one go: 1) A larger opening at the tip of the nozzle easily sucks up big bits. 2) It has maximum cleaning efficiency due to optimised airflow through the nozzle. 3) The two side brushes sweep up the dust and dirt closely alongside furniture and walls.
