HD8745/03

Taste the aroma of your favourite coffee beans

one-touch bean-to-cup espresso

Whatever coffee you wish to try next, the Saeco Xsmall will grind the beans freshly on the spot at the touch of a button. It comes equipped with a steam pipe to add a touch of milk froth pleasure to all your fresh coffee drinks.

Authentic Italian coffee perfection

- Coffee without burnt taste thanks to 100% ceramic grinders
- Delicious milk froth thanks to the classic milk frother

Easy to clean and maintain

- Always a clean machine thanks to automatic circuit cleaning
- Easy cleaning thanks to removable brewing group

Set the beverages to suit your taste

- Save your favourite coffee length
- Play with the coffee's richness with our adjustable grinders

 **Saeco**

Highlights

Automatic circuit cleaning

Saeco designed this espresso machine to automatically clean its coffee circuit with water when the machine is started up or switched off. This delivers a great, fresh taste with each cup of coffee.

100% ceramic grinders

This espresso machine is equipped with 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean, for an impeccable espresso. Ceramic also ensures long-lasting performance and totally silent operation.

Saves your coffee length

You will always get a perfect cup of espresso brewed according to your personal preference thanks to our memo function, which allows you to adjust the coffee length to suit your taste. Enjoy a superb coffee drink at the touch of a button.

Classic milk frother

This Saeco espresso machine comes with the classic milk frother, which baristas call "Pannarello". It dispenses steam and needs to be immersed in the milk to prepare gorgeous milk foam. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

5-step adjustable grinders

Different coffee blends require different levels of granularity for the full flavour to unfold. The grind granularity of this espresso machine can be adjusted in 5 settings, from the finest grind, for a full-bodied espresso, to the coarsest, for a lighter café crème.

Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easy cleaning by rinsing under the tap, ensuring maximum hygiene.

Specifications

Weight and dimensions

- Coffee bean capacity: 180 g
- Product dimensions (L x D x H):
295 x 325 x 420 mm
- Waste container capacity: 8 servings
- Maximum cup height: 95 mm
