Set the beverages to suit your taste

- Play with the coffee's richness with our adjustable grinders
- SBS: crema and body boost

Set the beverages to suit your taste

- Save your favourite coffee settings

 **Saeco**

Highlights

Immediate beverage selection

Whether you want a cappuccino or an espresso, with the immediate beverage selection you can enjoy your personally customised beverage speciality at the touch of a button

Auto-cleaning and descaling

Saeco designed this espresso machine to automatically clean its coffee circuit with water when starting up or switching off to deliver a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will not only prompt when descaling is needed, the automated descaling process will start and guide you with clear on-screen messages when you have to intervene. Descaling has never been so easy!

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert — finished.

Double boiler for fast results

Dual and independent heating systems enable you to make as many Latte Macchiatos and Cappuccinos as you need, without any loss of performance.

Integrated automatic milk

Enjoy your milk specialities non-stop: it is possible to refill the carafe with milk even while the integrated milk frother is plugged in and working.

Saves your coffee settings

You will always get a perfect cup of espresso brewed just for you, according to your personal preference, thanks to our innovative memo function for adjusting the coffee length, strength and temperature. Enjoy a superb coffee drink in your favourite cup at the touch of a button.

100% ceramic grinders

This espresso machine is equipped with 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean, for an impeccable espresso. Ceramic also ensures long-lasting performance and totally silent operation.

Specifications
