Highlights

Gentle on your hair

Protective ceramic coating ensures even heat distribution and less hair damage for shiny and soft hair.

210°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look, as if you've just come from the salon.

Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

Digital heat settings

Digital heat settings make it easy to quickly choose the function you need or adjust the styling temperature using the digital display. This enables you to select the perfect temperature for your specific hair and needs. The result is perfect styling at the touch of a button.

Instant heat

No more waiting around for your styler to heat up; this allows you to switch on and get styling.

Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

25 mm tong

If you want to create beautiful curls or waves, you need a curling iron with a medium sized diameter. 25 mm is the perfect size for creating fashionable curls and waves. Truly the professional's choice.

Cool tip

The tip of the styler is made from a special heat insulating material to keep it cool; you can safely hold it while you're styling for optimal ease of use.

Safety stand

The safety stand enables you to put the curler down safely during use.
