Highlights

21 locking length settings

Two adjustable combs provide length settings from 3 mm to 41 mm, with precisely 2 mm between each length. Or you can use it without a comb for a close 0.5-mm trim.

Battery light

Battery light glows green when full and blinks orange when 10 minutes remain.

Built to last

All of our grooming products are built to last. They come with a 2 year worldwide guarantee, worldwide voltage compatibility, and they never need to be oiled.

Follows every curve

The hair clipper gently follows the contours of your head for a fast, even and comfortable haircut.

Li-ion battery power

The powerful lithium ion battery of the Philips hair clipper lasts for 75 minutes after a 1-hour charge. A quick 10-minute charge gives you 10 minutes of clipping time, so it's always ready when you are.

Self-sharpening steel blades

The steel blades of the electric shaver lightly brush against each other, so they sharpen themselves as you trim! The blades stay extra-sharp to always cut hairs neatly and effectively, but have rounded tips to protect your skin.

Washable

Simply pop the head open and you can thoroughly rinse it under the tap.
