RQ12/62

Highlights

Compatible with SensoTouch 3D

RQ12 shaving unit is compatible with SensoTouch 3D (12__X) and Arcitec (10__X) shavers.

V-Track Precision Blades

The patented V-Track Precision Blades gently position each hair in the best cutting angle, even hairs that are flat or different lengths. This allows you to cut 30% closer in less strokes leaving your skin in great condition.

8-direction ContourDetectHeads

Follow every contour of your face and neck with 8-directional ContourDetect heads. You'll catch 20% more hairs with every pass. Resulting in an extremely close, smooth shave.

Super Lift & Cut Action

Shave closer with the dual-blade Super Lift & Cut action. The first blade raises each hair while the second blade comfortably cuts below skin level, for really smooth results.

Simple replacement

Easily renew your shaving unit using our click off, click on system.

How to reset your shaver

The latest Philips shavers have an inbuilt replacement reminder which will indicate you when to replace shaving heads. After replacing shaving heads, you can reset replacement trigger by pressing the on/off button for more than 5 seconds. Otherwise, replacement trigger will turn off automatically after 9 successive shaves.

Reset your shaver to new

To get back to 100% performance, replace your shaving heads every 12 months.
