Highlights

Dual SteelPrecision blades

With up to 150.000 cutting actions per minute, the Dual SteelPrecision blades shave close. The 72 high-performance blades are self-sharpening and made in Europe.

Smart Hair sensor

The intelligent sensor reads facial hair density 500 times per second and auto-adapts cutting power for an effortless and gentle shave.

Motion Control sensor

Motion-sensing technology tracks how you shave and guides you to the optimal movements. After just three shaves, the majority of men achieved a better shaving technique for fewer passes**.

Personalization via app

Pair your Philips electric shaver to the GroomTribe app and prepare to master your technique. Just track your progress and personalize your routine to achieve a shave that's both close and kind.

ComfortGlide rings

Shaving heads are surrounded with ComfortGlide rings, a special protective coating with skin gliding properties, to shield your face from irritation.**

Shave wet & dry

Get a convenient dry shave or a more refreshing wet shave with gel or foam - even in the shower.

Pop-up trimmer

Finish your look with the built-in trimmer. It's ideal for maintaining your mustache and trimming your sideburns.

60 minutes of cordless shaving

Shave for up to 60 minutes on a 1-hour charge - that's about 20 shaves - with the powerful Li-ion battery. A 5-minute quick charge gives enough power for one shave. Operates in cordless mode only.

Intuitive display

The intuitive display shows the information you need to get the best experience from your shaver. The LED interface includes: 3-level battery status, cleaning advice and travel lock indicator.
