

Philips
Straightener

HP8344/20

Beautiful smooth and shiny hair with care

Hair straightener with Nano-Diamond plates

The new Philips Care Nano-Diamond straightener allows you to get the straight hair style while being gentler on your hair. 3x more caring straightening thanks to ionic conditioning, nano-diamond ceramic plates and digital temperature

Ease of use

- Automatic shut-off after 60 min
- Closing lock to close the handle for easy and safe storage
- 1.8 m power cord
- Fast heat up time, ready to use in 30 seconds
- Swivel cord to prevent tangled wires
- No more accidental change of settings with key-lock function
- Including pouch for easy storage

Beautifully styled hair

- 230°C professional high heat for perfect results

Less hair damage

- Digital settings with adjustable heat to get smooth results
- ThermoGuard prevents unintentional heat exposure above 200°C
- Healthy hair without hotspots with Even Heat Distribution
- Smooth and gentle on your hair with Nano-Diamond plates

PHILIPS

Highlights

230°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look you want.

Ionic Care

Give your hair an instant care with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

Nano-Diamond plates

The advanced Ceramic Nano-Diamond straightening plates offer optimal heat transfer and a super smooth, scratch resistant surface for extra smooth gliding and hair protection.

ThermoGuard

Prevent unintentional heat exposure with Thermoguard, by increasing temperature with steps of 5°C only, above 200°C.

Digital settings

Digital settings with adjustable heat to get smooth results with all hairtypes

Instant heat up

The straightener has a fast heat up time, being ready to use in 30 seconds

Auto key-lock function

You are always in control. No more accidental switching on/off of the styler or temperature change with the Key-lock function.

Handle closing lock

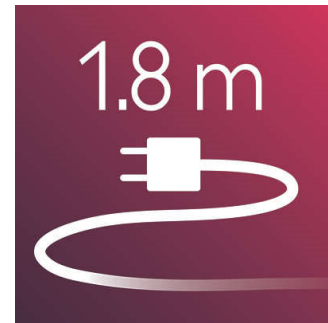

The straightener has a closing lock mechanism. Located at the base of the straightener, this locks plates, making storage quick and easy and

helping to protect the straightener from accidental damage.

Including pouch

Including pouch for easy storage

1.8 m cord

1.8 m power cord

Even Heat Distribution

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

Specifications
