Effective, gentle cleansing for blemish prone skin

Better oil reduction than cleansing by hand

VisaPure Anti-Blemish targets the two stages precedent to the formation of a blemish with better results compared to cleansing by hand: reduces oiliness and removes dead skin cells that may otherwise clog pores.

Cleansing brush heads for blemish prone skin

- Thin, long bristles to reach pores better than hands alone
- Nylon bristles that absorb little water
- Gentle enough for blemish prone skin type

As gentle as your hands; can be used twice per day

- 1 minute program (timer) for the full face
- Gentle cleansing and Deep Cleansing setting

It easily integrates in your current routine

- The stand charges Philips VisaPure Essential when connected
- 30 minutes of cordless use, 6 hour charge
- Philips VisaPure Essential can be used in the shower

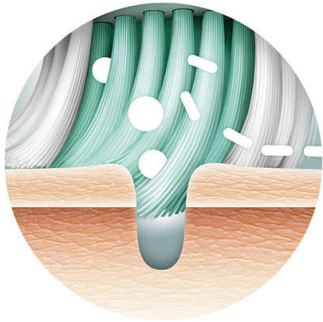

Leaves your skin feel soft and smooth

- Perfectly designed for optimal hygiene
- Philips VisaPure comes with a range of additional brushes

PHILIPS

Highlights

Effective and gentle cleansing

VisaPure Anti-Blemish brush has thin and long bristles that can reach pores better to reduce oil and remove dead skin cells that may otherwise clog your pores.

Hygienic bristles dry quickly

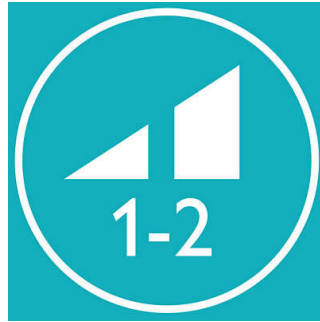

When developing the Anti-Blemish brush we were keen to limit the effect of the bad bacteria. So we worked with renowned dermatologists and bacteria experts and developed a brush that absorbs very little water which means it dries rapidly thus hampering the development of bacteria.

Inputs from dermatologists

Several doctors and dermatologists were involved during the development phase of the Anti-Blemish brush to ensure that the needs of blemish prone skin are fully taken into account.

2 Speed setting

Philips VisaPure Essential provides 2 different speed settings: Speed one, 'gentle cleansing', for a mild and soft cleansing. Speed two, 'deep cleansing', for a comfortable and more intensive cleansing.

Intelligent skin zone timer

The face can be divided into three zones: T-zone, left cheek and right cheek. Philips VisaPure Essential suggests to change face skin area after 20 seconds with a short pause. The full program lasts 1 minute after which Philips VisaPure Essential automatically switches off after to prevent overtreatment.

Additional Brushes

2 Anti-Blemish brush heads are included with Philips VisaPure Anti-Blemish pack. A normal, sensitive, extrasensitive, exfoliating and deep pore brush heads are available separately.

Waterproof

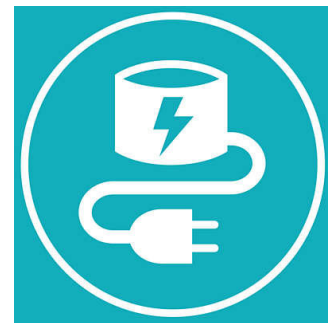

Philips VisaPure Essential is waterproof and can be easily used in the shower.

Charging Stand

The stand elegantly complements the iconic design of Philips VisaPure Essential. It holds the brush, taking less space and letting air naturally dry the used brush. When connected, it fully charges Philips VisaPure Essential in 6 hours.

Rechargeable

When fully charged, Philips VisaPure Essential has cordless power for 30 uses, equivalent to 15 days when used twice per day.

Designed for optimal hygiene

The silky soft bristle material of all our VisaPure brush heads is a specially chosen, delicate nylon. This helps to ensure the brush heads are super easy to clean and keep fresh.
