# PHILIPS

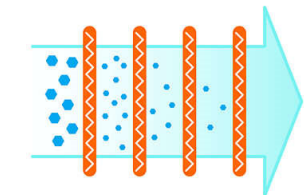

# Highlights

## Clean Air HEPA filter

The High Efficiency Particulate Air filter filters fine dust from the air. This guarantees more dust is captured.

## 4-layer filtration system

The filtration system consists of four individual layers. This makes sure all the dust is captured inside the vacuum cleaner.

## S-bag

This dust bag has multiple layers and clogs less fast than ordinary dust bags. This guarantees longer lasting cleaning performance.

## PowerControl function

You can adjust the suction power with the turning wheel. Turn to the maximum for extra power when you need it.

## Big rubber wheels

The big wheels are made with soft rubber on the outside, so they will not damage your floor during usage.
