Straight hair has never been so easy

SalonStraight Control

Take control with the SalonStraight Control. Advanced Ceramic Tourmaline plates coupled with a professional styling temperature of 230°C gives you the power to create beautifully shiny, straight styles.

Ease of use

- Swivel cord to prevent tangled wires
- Automatic shut-off after 60 min
- On/off indication light
- Easy storage hook for convenient storage
- 1.8 m power cord

Beautifully styled hair

- Rubber handle grip for easy salon performance
- 230°C professional high heat for perfect salon results
- Adjustable heat settings to ensure smooth results
- Ceramic Tourmaline plates for sleek, frizz-free shiny hair

Less hair damage

- EHD+ technology for more protection and shinier results

PHILIPS

Highlights

Rubber handle grip

The soft, rubber handled grip is ergonomically designed. Non slip, it has been tested by professionals for easy handling and salon performance.

Ceramic Tourmaline plates

Tourmaline is a precious gemstone with natural ionic properties. This knowledge has been used to optimize our Ceramic straightening plates. These specially developed plates harness the unique properties of ceramic and tourmaline to perfectly distribute heat across the plate surface for smooth gliding and high shine results. Enjoy sleek, frizz-free shiny hair by styling with Ceramic Tourmaline plates.

230°C professional temperature

This high temperature enables you change the shape of your hair, and gives you that perfect look like you've just come from the salon.

Adjustable heat settings

Adjustable heat settings allow you to quickly and easily change the styling temperature from low to high. This enables you to select the perfect temperature for your specific hair and needs so you can always get the smooth, styling result you want.

EHD+ technology

Advanced Philips EHD+ technology means that your styler will always distribute the heat very evenly - even at high temperatures, and prevents damaging hot spots. This gives added protection and thus helps to keep your hair healthy and shiny.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.

Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

Safe usage

Some hair straighteners and curling irons have been equipped with an automatic shut-off feature. This feature has been designed to provide peace of mind. If left on, the appliance will automatically switch off after 60 min.

On/off indication light
