

Philips  
Eye Brightener

**Optimode Technology**

Multi-temperature surface  
Silicon acupoint stimulus  
USB cable, Travel pouch

**BSC301/00**

# All in one solution, to fight

puffy, fatigue, dry eyes, dark circles, fine lines

98% of consumers\* agree that the eye brightener helps them radiate energy from their eyes instantly!

#### **Dual-sided treatment head**

- Acupoint stimulus surface with soft silicone touchpoints
- Concave surface for comfortable warm and cool treatments

#### **Convenient**

- USB charging for increased flexibility
- Light & sound guides lead you easily through treatments
- Neoprene travel pouch for protection

#### **With one device refresh, relax and detox**

- 3-step mode combats dark circles and fine line forming
- Optimal treatment settings address 5 different eye concerns
- 2 min cool mode reduces puffiness and refreshes
- 4 min warm mode relieves eye fatigue and dryness

#### **Safe and gentle, professionally designed**

- Developed with skin experts
- Eyes are away from all signs of fatigue effectively

# PHILIPS

## Eye Brightener

Optimode Technology Multi-temperature surface, Silicon acupoint stimulus, USB cable, Travel pouch

BSC301/00

# Highlights

### Multi-temperature surface

Our specially designed multi-temperature surface covers the entire eye, while giving you precisely-timed warm or cool treatments at optimal temperatures. Its rounded, concave shape prevents your sensitive inner eye from receiving too much pressure.

### Detox Mode

A professionally designed 3-step program increases microcirculation to combat dark circles, prevents early fine line forming and gives your eyes a healthy glow. Step 1: A warm treatment for 90 seconds per eye at  $\sim 40^{\circ}\text{C}$  stimulates blood flow, triggering fresh oxygen and nutrient delivery. Step 2: A 30-second acupoint stimulation under each eye, with silicone touchpoints, prompts lymph drainage and relieves tensions in the eye muscles to prevent early fine line forming. Step 3: A 15-second cold treatment at  $\sim 19^{\circ}\text{C}$  per eye which constricts blood vessels, making dark circles less visible.

### Optimode Technology

Optimized settings automatically choose the best temperature to address 5 different eye concerns. A cold treatment to reduce puffiness and refresh your eyes. A warm treatment to increase blood flow to diminish fatigue and stimulate tear glands to help moisturize eyes. A combination program with acupoint stimulus to support natural lymph drainage with improved blood circulation to combat dark circles and release stress & muscle tension to prevent risk of fine line forming.

### Refresh Mode

A professionally designed 1 min cold treatment per eye at  $\sim 19^{\circ}\text{C}$ , reduces swelling and cools the eye area by 8 degrees to give you a fresh feeling sensation.

### Relax Mode

A professionally designed 2-minute warm treatment per eye at  $\sim 40^{\circ}\text{C}$ , relaxes, de-

stresses your eyes. It also triggers the production of essential oils in the eye area, preventing dryness and fatigue caused by extensive computer work.

### Acupoint stimulus surface

Our acupoint stimulus surface has 60 silicone touchpoints to help you stimulate lymph drainage.

### Developed with skin experts

Philips Eye Brightener has been developed in collaboration with expert scientists and researchers.

### Travel pouch

Stylish neoprene pouch protects your device when you travel.

### USB cable

USB cable for more flexible charging via your computer - whether you're at work, on the road, or at home.

# Specifications

## Design

- Color: White

## Accessories

- Pouch: Travel pouch

## Ease of use

- Display: 3 optimal settings, Massage head indicator, Switch eye indicator, Not available indicator, Battery indicator
- Cleaning: Wipe with damp towel
- Operation: Cordless use
- 3 optimal settings: Refresh, Relax, Detox
- Fits into your daily routine: Use day or night
- Light guide: Blinks for preparation time, Blue or red for chosen setting
- Sound guide: Left eye/right eye treatment, Change treatment surfaces

## Power

- Automatic voltage: 100-240 V
- Charging: USB charging
- Battery type: Lithium-ion

## Service

- 2-year warranty: On the handle

## Eye Brightener

- Optimode Technology: Optimal cure per eye concern
- Dual-sided treatment head: Acupoint stimulus surface, Multi-temperature surface
- Refresh mode: 2 min cool mode at ~19°C
- Relax mode: 4 min warm mode at ~40°C
- Detox mode: 3-step combination program
