60 min shaving, 1 hr charge
Advanced touch-screen display

1290X/40

Series 8000 - Ultimate shaving experience

with GyroFlex 3D system

The Philips Norelco Shaver 8800 (formerly called SensioTouch 3D) features an advanced touchscreen display and Gyroflex 3D technology for a close, comfortable shave. Shaving heads follow three specialized tracks to catch every hair.

Designed for comfort

- Contour-following shaver minimizes pressure and irritation
- Skin friendly precision trimmer
- Smooth surface glides over your skin

Advanced chrome display

- Touch-control display lets you know how much power remains

Protective seal for wet or dry shaving

- Comfortable shaving, wet or dry, thanks to the AquaTec seal

Cordless, travel-friendly design

- One-hour charge provides up to 20 days of shaving time

Innovative technology for a closer shave

- Shaver lifts hair to cut below skin level
- Shaving heads catch and trim every hair

1290X/40

Highlights

GyroFlex 3D

Philips Norelco's best shave yet, Series 8000 gives you the ultimate shaving experience. Its GyroFlex 3D system has three dynamic parts that move independently, flexing outward, pivoting around, and tilting inward to follow the contours of your face.

UltraTrack shaving heads

The UltraTrack shaving heads catch every hair in just a few strokes with three specialized shaving tracks: slots for long hairs, channels for longer hairs, and holes for the shortest stubble.

Super Lift and Cut action

The patented Super Lift & Cut dual blade system lifts hairs to cut comfortably below skin level for a close, even shave.

Aquatec - Wet or Dry shaving

Now you can shave any way you want. The AquaTec seal gives you the option of either a comfortable dry shave or a refreshing wet shave with shaving cream or gel.

SkinGlide shaving surface

With a low-friction SkinGlide shaving surface, the razor slides smoothly along your skin for a close shave without irritation.

Touchscreen display

Shaver 8900 has an easy-to-use touchscreen display that shows exactly how many minutes of

shaving time remain before the battery needs to be recharged. You can also check whether the battery level, charging status, and the cleaning indicator at a glance. There's even a replacement-head indicator that helps ensure every shave is a close shave.

Rechargeable

The cord-free SensoTouch 3D charges in one hour and provides up to 60 minutes (or a maximum of 20 days) of shaving time. A display lets you know how much power remains in the lithium-ion battery and when you need to replace the blades.

Precision trimmer

The unique skin friendly precision trimmer system is built to avoid unnecessary skin contact. Easy to use for perfect moustache and sideburn trimming.
