Dry, style and set your hair your way

JetSet Control ION

Take control of your blow dry with the JetSet Control ION. 2000W of professional drying power, Ionic conditioning and multiple settings means great results – from dry to set to style.

Easy to use

- 1.8 m power cord
- Easy storage hook for convenient storage

Beautifully styled hair

- Professional 2000W for perfect salon volume
- Narrow concentrator for focused airflow
- Six flexible speed and temperature settings for full control

Less Hair Damage

- Ion conditioning for shiny, frizz free hair

Long lasting styles

- Cool Shot sets your style

Time saving

- TurboBoost lets you dry faster without additional heat

Highlights

Six flexible speed settings

The speed and heat required can be easily adjusted to create the perfect style. Six different settings ensure full control for precise and tailored styling.

Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

Ion conditioning

Give your hair an instant boost with ionic conditioning. Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is hair that is beautifully shiny, smooth and frizz-free.

TurboBoost

The special TurboBoost feature has been designed to quickly dry yet protect the hair by providing powerful drying without the need for increased temperature.

Cool Shot

A must-have professional function for hair stylers. The Cool Shot button provides an intense burst of cold air. It is used after styling to finish and set the style.

Easy storage hook

The rubberised hook is located at the base of the handle and provides another storage option, particularly convenient for use in the home or when staying at a hotel.
