## Highlights

### Lift & Trim system

Perfect for stubble, the Philips beard trimmer features our new Lift & Trim system: a comb that lifts and guides the hairs to the level of the blades for an even trim.

### Self-sharpening blades

The self-sharpening steel blades on the Philips 3000 beard trimmer stay as sharp and effective as on day 1 to deliver a perfect yet protective trim, time after time.

### DuraPower technology

This beard trimmer uses DuraPower technology to reduce friction on the blades, preserve the motor, and keep your battery going four times longer.

### Skin-friendly blades

Designed to prevent scratches and irritation, the blades have rounded tips for smoother skin contact.

### Precision Dial - 10 settings

An effective beard trimmer that cuts to the exact length you're after. Just spin the zoom wheel to one of 10 length settings between 0.5 and 10mm in 1mm increments.

### 60 min cordless use

Charge your trimmer for 8 hours with your USB cable to get 60 minutes of cordless use.

### Battery indicators

The green light on the adaptor lets you know when your device is charging.

### Easy to clean

Detach the head of your Philips beard trimmer and rinse it under the tap for easy cleaning. Then dry it before you put it back on the appliance.

### Ergonomic design

A fast trimmer that's comfortable to hold and use. So you can handle those hard-to-reach areas more easily.

### Built for durability

We back this Philips trimmer with a 2 year\* worldwide warranty. You'll never need to oil it, and it's compatible with all worldwide voltages.
