- No-fuss coffee experience thanks to low water consumption
- Keep a clean machine with just a single finger
- Easy cleaning thanks to dishwasher-safe parts

Set the beverages to suit your taste

- Experiment with flavors thanks to the coffee bean switcher

 **Saeco**

Highlights

100% ceramic grinders

This espresso machine is equipped 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean for an impeccable espresso. Ceramic also ensures long-lasting performance and a totally silent operation.

Coffee bean switcher

You can now change beans with only one click thanks to the patented exchangeable bean container. Enjoy the convenience of quickly changing the beans blend and find the perfect fit for every taste preference and moment of the day.

Patented dual chamber carafe

Enjoy your milk specialties fully automated with the new patented milk carafe with dual

chamber technology. Simply pour milk into the carafe, plug it into the machine and select your coffee drink. With the dual chamber technology you will always enjoy professional coffee drink with dense, long-lasting milk froth at the ideal temperature from a constant splash-free flow of milk.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic cleaning.

18 coffee specialties

From a creamy cappuccino to a regular coffee, savor a world of 18 different drinks due to Saeco's VariPresso brewing group chamber. It will automatically adjust the pressure, adapting to suit many types of coffee extraction for a great coffee variety at home.

Thermo-speed technology boiler

Enjoy perfectly hot, professional-quality coffee without the wait, thanks to our new, powerful boiler with the Saeco Thermo-speed technology. The Thermo-speed technology will flash-heat the coffee circuit when the machine is turned on and prevent the heat loss ensuring perfect, hot coffee from the very first cup.

No-fuss coffee experience

This new cutting-edge brewing group in this espresso machine was designed to reduce water consumption for its rinse cycle by up to 80%. This means you can now prepare more coffee drinks without having to refill the water tank.
