PHILIPS

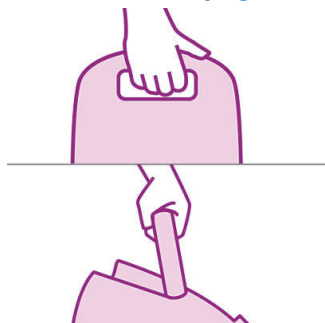

Highlights

2000 Watt motor

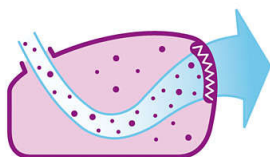

This powerful 2000 Watt motor generates max. 400 Watt suction power for excellent cleaning results.

Comfortable carrying handles

This vacuum cleaner has not one, but two carrying handles. When it is on its wheels, there is a handle on top which enables you to easily move the cleaner around with very little bending. The second handle on the front side of the appliance enables you to comfortably carry it around in an upright position.

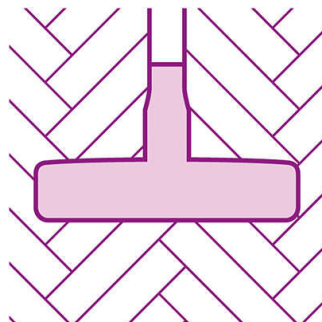

HEPA AirSeal, HEPA 13 filter

HEPA AirSeal & HEPA 13 filter

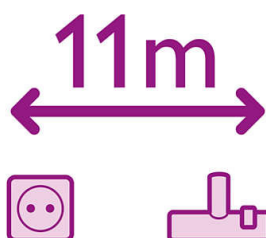

This Philips vacuum cleaner has been designed in such a way that all the air taken in is passed through the washable HEPA 13 filter (99.95% filtration) before it is exhausted. No escape is possible.

Parquet nozzle

No more risk of scratches thanks to this nozzle with soft brush hairs, especially designed to carefully clean your hard floors.

11 m reach

Thanks to its 8 m cord you have an 11 m reach without having to switch the plug.

TriActive nozzle

The TriActive nozzle cleans your floor in 3 ways in one go: 1) A larger opening at the tip of the nozzle easily sucks up big bits. 2) It has maximum cleaning efficiency due to optimized airflow through the nozzle. 3) The two side brushes sweep up the dust and dirt closely alongside furniture and walls.
