- Coffee without waiting thanks to the quick heat boiler

Ease of cleaning and maintaining

- Always a clean machine thanks to auto-clean and descaling
- Easy cleaning thanks to removable brewing group

Ease of cleaning and maintaining

- Easy cleaning thanks to dishwasher-safe parts

Set the beverages to suit your taste

- Save your favorite coffee settings
- Avoid heat loss and fit every cup with our adjustable spout

 **Saeco**

Highlights

Quick heat boiler

The Saeco quick heat boiler technology ensures your machine is always ready. Now you won't have to wait between brewing each espresso, but can prepare coffee after coffee.

Saves your coffee settings

You will always get a perfect cup of espresso brewed just for you, according to your personal preference, thanks to our innovative memo function to adjust the coffee length, strength and temperature. Enjoy a superb coffee drink in your favorite cup with just the press of a button.

Adjustable spout

The adjustable spout on our espresso machines will fit every cup and thus prevents

the coffee splashing or cooling down while pouring in your cup. This way your espresso is always served at the right temperature while maintaining a clean machine.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic cleaning.

Removable brewing group

The brewing group, a Saeco invention, is the heart of our espresso machines, ensuring automation. The brewing group is, depending on the model, easily accessible from the front or side. It can be removed effortlessly for easily cleaning by rinsing under the tap ensuring maximum hygiene.

Auto cleaning and descaling

Saeco designed this espresso machine to automatically clean its coffee circuit with water upon starting up or switching off of the machine, this delivers a great, fresh taste with each cup of coffee. Regular descaling prolongs your espresso machine's life. This machine will not only prompt when descaling is needed, the automated descaling process will start on your machine and guides you with clear on-screen messages when you have to intervene. Descaling has never been so easy!

Automatic milk frother

Preparing a tasty cappuccino is easy with this Saeco espresso machine thanks to the automatic milk frother, which baristas also call "cappuccinatore". The milk frother will draw milk directly from a milk carton or jug and froth it automatically, dispensing it directly into your cup. With just one touch you will instantly get a delicious and creamy froth.

Specifications

Easy to use

- Usage: Rapid steam

Weight and dimensions

- Waste container capacity: 30 servings
- Product weight: 15 kg
- Product dimensions (L x D x H): 380 x 465 x 395 mm
- Coffee bean capacity: 300 g
- Water tank capacity: 2.2 L
