# PHILIPS

# Highlights

## Twin boomerang-shaped blade

The specially designed twin boomerang-shaped blade provides finer cutting performance. The two serrated wings bent down at different angles, which results in a more effective bean contact surface during cutting. Additionally, the two side wings improve bean distribution for optimal cutting performance.

## Enlarged bottom radius

The enlarged bottom radius of the inner pan allows for easy reach, so you can give it a clean sweep in one go.

## Power connection cover

This cover prevents water from entering the power connector, making washing safer

## Cageless design

The cageless design and smooth surfaces without screws and protruding edges are easier to clean

## Specially designed sieve

Finish filtering in one pour without stirring thanks to the specially designed sieve

## 100% food-grade lubricant

100% food-grade lubricant on motor shaft seal & bearings

## "Easy Clean" button

Pressing the "Easy Clean" button starts preliminary cleaning by heating up and stirring the water, allowing for easy cleaning at your convenience with less effort

## Waterproof cap at coupler

This waterproof cap prevents water from entering the coupler, which makes washing safer

## Favorite drinks made easily

Making your favorite drink is easy by selecting the right program, including dry/soaked soymilk, five grains soymilk, rice paste, veggie/ fruit juice & vegetable puree soup
