# Highlights

## New 1250 Watt HD motor

Highly efficient 1250 Watt HD (High Density) motor generates 325 Watt max. suction power, which means that you use 20% less energy with same performance as an 1800 Watt appliance.\*

## EPA AirSeal, EPA 12 filter

This vacuum cleaner has been designed in such a way that all the air taken in is passed through the EPA 12 filter (99.5% filtration) before it is exhausted. No escape is possible.

## Comfortable carrying handles

This vacuum cleaner has not one, but two carrying handles. When it is on its wheels, there is a handle on top which enables you to easily move the cleaner around with very little bending. The second handle on the front side of the appliance enables you to comfortably carry it around in an upright position.

## Clean Comfort Cassette

When disposing the dust bag of your Philips vacuum cleaner, there will be no contact with the dust thanks to this patented dust bag holder.

## TriActive nozzle

The TriActive nozzle cleans your floor in 3 ways in one go: 1) A larger opening at the tip of the nozzle easily sucks up big bits. 2) It has maximum cleaning efficiency due to optimized airflow through the nozzle. 3) The two side brushes sweep up the dust and dirt closely alongside furniture and walls.

## 2000 Watt motor

This powerful 2000 Watt motor generates max. 375 Watt suction power for excellent cleaning results.
