Set the beverages to suit your taste

- Save your favorite coffee length and strength

Set the beverages to suit your taste

- Play with the coffee's richness with our adjustable grinders
- Avoid heat loss and fit every cup with our adjustable spout

 **Saeco**

Highlights

100% ceramic grinders

This espresso machine is equipped 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean for an impeccable espresso. Ceramic also ensures long-lasting performance and a totally silent operation.

Quick heat boiler

The Saeco quick heat boiler technology ensures your machine is always ready. Now you won't have to wait between brewing each espresso, but can prepare coffee after coffee.

Classic milk frother

This Saeco espresso machine comes with the classic milk frother that baristas call a "Pannarello". It dispenses steam and is immersed in milk to prepare gorgeous milk foam. Unleash your inner barista by preparing your delicious milk specialties the traditional way!

Saves coffee length & strength

You will always get a perfect cup of espresso brewed according to your personal preference, thanks to our memo function which allows you to adjust the coffee length and strength to suit

your taste. Enjoy a superb coffee drink in your favorite cup with just the press of a button.

Adjustable spout

The adjustable spout on our espresso machines will fit every cup and thus prevents the coffee splashing or cooling down while pouring in your cup. This way your espresso is always served at the right temperature while maintaining a clean machine.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic cleaning.
