- No pre-cutting needed thanks to XXL feeding tube
- 2 speeds for soft or hard fruit and vegetables
- Juice the toughest ingredients - 1000 W

Delicious and easy to make recipes

- Recipe booklet full of inspiring juice recipes

PHILIPS

Highlights

Make 2.5 L in one go

Thanks to the innovative juice extraction system with the upside down sieve, this juicer extracts up to 10% more juice*. And depending on the type of fruit or vegetables one juices, it is possible to make up to 2.5 liters of juice in one go without the need to empty the pulp container.

XXL feeding tube

The 80 mm extra large feeding tube allows you to juice even large fruits and vegetables like apples, carrots and beetroots without pre-cutting.

2 speeds

The 2 speeds of the Philips Juicer allow you to extract the most out of your favourite fruit and vegetables - both soft and hard.

QuickClean technology

The Philips juicer is designed for easy cleaning thanks to QuickClean technology. Cleaning can now be done within 1 minute, thanks to the integrated pulp container and smooth surfaces.

QuickClean sieve

A lot of pulp fibres usually get stuck in the sieve, which makes it very difficult to clean. Thanks to the innovative QuickClean technology all surfaces of the sieve are smooth, which helps you wipe away the fibres with a standard kitchen sponge.

Integrated pulp container

The pulp will all be collected in the only place where it should be: in the pulp container of your Philips juicer. That means there is no

need to remove pulp from other parts such as the lid anymore. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.

Smooth and easy to clean

The juicer is designed with round shapes and smooth surfaces to facilitate easy rinsing under the tap.

Quick and easy assembly

Quick and easy assembly of all parts.

Drip stop

Always keep your kitchen counter clean even when you are done juicing. The drip stop prevents any juice from dripping on the table.

Specifications

Technical specifications

- Power: 1000 W
- Cord length: 1 m
- Voltage: 220-240 V
- Frequency: 50/60 Hz
- Pulp container: 1.6 L
- Feeding tube dia: 80 mm
- Capacity juice jug: 1500 ml

General specifications

- Non-slip feet
