- Even-up your mustache and sideburns

# Highlights

## Pressure Guard sensor

Using the right pressure is key for closeness and skin protection. Advanced sensors in the shaver read the pressure you apply, and the innovative light signal shows when you are pressing too hard or too little. For a personalized shave that is just right for you.

## Dual SteelPrecision blades

With up to 150.000 cutting actions per minute, the Dual SteelPrecision blades shave close. The 72 high-performance blades are self-sharpening and made in Europe.

## Protective SkinGlide coating

A protective coating lies between the shaver heads and your skin. Made of up to 2.000 micro-spheres coat every square millimeter. Minimize irritation by reducing 25% of friction on skin\*\*\*.

## Power Adapt sensor

The intelligent facial-hair sensor reads hair density 500 times per second. The technology auto-adapts cutting power for an effortless and gentle shave.

## Motion Control sensor

Motion-sensing technology tracks how you shave and guides you to a more efficient technique via our GroomTribe app. After just three shaves, the majority of men achieved a better shaving technique for fewer passes\*\*.

## 360-D Flexing heads

Designed to follow the contours of your face, this Philips electric shaver has fully flexible heads that turn 360° for a thorough and comfortable shave.

## Advanced OLED display

The first Philips shaver with a dynamic OLED display reveals every shaver feature and notification with sharp, fluid animation. The intuitive interface includes SkinIQ guidance, battery status, cleaning advice and more.

## Pop-up trimmer

Refine and define your mustache and sideburns with the pop-up trimmer—and complete your look with ease.

## Personalization via app

Pair your Philips electric shaver to the GroomTribe app and prepare to master your technique. Just track your progress and personalize your routine to achieve a shave that's both close and kind.
